1928 Auto Tags METHODIST MEE Will Go On Sale

Sale of automobile license tags for 1928 will begin at the state capitol Thursday in the office of S. G. McLendon, secretary of state, and preparations have been completed for distributing the tags as expeditiously as possible.

The window sales of the tags will The window sales of the tags will be operated under the direction of J. Threatt Moore. The mail order division will be directed by Dr. Royal J. Miller, while the office work and compilation of records will be handled under the direction of Arthur T. Harris. The entire motor vehicle department is operated under the general direction of Secretary McLendon. It was expected that the first tag would be sold to J. H. Ennis, of Milledgeville, who has obtained license tag No. 1 every year since the motor vehicle department was created. This year the tags will be sold on a basis of the weight of the automobile rather than on the horsepower, as in the past. This change was made by the state legislature in a law

by the state legislature in a law passed at its last session. Under the new system the price of tags for the smaller automobiles will remain the same, while there will be slight in-creases in the price for the larger cars of certain classes and slight de-creases in the price for larger cars of

creases in the price for larger cars of other types.

Secretary McLendon announced Wednesday he would use every agency at his command to give the public the best possible service and asked for the cooperation of the automobile owners in making this service good. He said the best way the public can ecooperate is to learn the model number of each car when a license is bought. The office force finds the weight of the car through use of the model number and a person will be saved much delay and inconvenience be having the model number in his possession when he applies for the license.

Annual election of officers of the Vanderbilt Alumni association will be held at 6 o'clock tonight at a dinner meeting at the Atlanta Athletic club. J. G. Stahlman, president, and L. B. Smelser will be hosts and will be the principal speakers at the meeting which will follow the dinner.

There are more than 100 Vanderbilt alumni in Atlanta and all graduates and former todays of the will be a seen for the standard of the seen for the see ner with reservations a \$1.50 each authorities.
Reservations can be made with Rembert Marshall at the Athletic club beple of Virginia authorities.

McDonough, Ga., November 30.—
Bishop E. G. Richardson, Atlanta, Ga., will preside at the annual session of the Atlanta conference of the Methodist Episcopal church in McDonough, Ga. December 13 to 18.

The principal features of the conference will be the reading of the respect of the district superintendents regarding the work in their various areas, discussions of the World Service commission which includes the benevolent and missionary work of the church at home and abroad. General representatives will also be present and speak of the work of the boards of education, pensions and relief, temperance, prohibition and public morals, hospitals, homes and deconess work, home and foreign missions. Tickets for the lecture go on sale this morning at 9 o'clock at the box office in the store of the Cable Plano company on North Broad street. Indications are that a large crowd will turn out to hear the prince, taking advantage of the rare opportunity of hearing a genuine royal personage, and

advantage of the rare opportunity of hearing a genuine royal personage, and also one of the most famous living hunters and explorers.

Prince William will lecture on his experiences in Central Africa while studying the little known pygmy tribes there, and the habits of the giant gorilla. His lecture is illustrated with both still and writer prices.

gorilla. His lecture is illustrated with both still and motion pictures.

Preparing for a crowd of several thousand, special amplifiers are being installed at the auditorium in order that every word may be easily audible in all parts of the building.

Reports from other cities where the prince has spoken state that he is possessed of a powerful, clear speaking voice. They also state that his lecture is not only interesting, but one of the wittiest presentations ever heard.

VETERANS LAUNCH DRIVE TO ELECT COLONEL GRAYSON

A campaign to elect Colonel Wil-liam L. Grayson commander in chief of the United Spanish war veterans will be launched among members of local camps at a dinner-meeting Fri-day night at the Piedmont hotel. Southern veterans, especially those day night at the Piedmont hotel.

Southern veterans, especially those of Georgia, are anxious to have Colonel Grayson at the head of the national organization, and all local members have been urged to attend the meeting to lay preliminary plans with this in view, officers say.

The next national convention will be held in Cuba during October of next year, and it is expected that many southern delegates will be present to poll a vote for Colonel Grayson.

DRAGON SOUGHT

anapolis, Ind., November 30.—
unother effort will be made to the temporary release from of D. C. Stephenson, former dragon of the Ku Klux Klan, serving a life term for murder, 0. Hill, attorney, said today, said the petition soon would mitted to the same prison board denied Stephenson a 30-day parole. Hill declined to say on what grounds the petition would be based.

Attorneys for Stephenson, who once was a political power in the state, are expected to ask the Indiana supreme court for an extension of time from December 8 in which to file a reply brief in the appeal from the murder conviction. He was found guilty in November, 1925, of murder guilty in November, 1925, of murder guilty in November, 1925, of murder is filed the appeal will have been completed.

DR. HENRY C. WHITE.

ing of the youth of Georgia and hold-ing high before the people of the state the torch of learning and of culture. "Of men of science in the south per-haps not one in recent years was more generally recognized by the larger edu-cational institutions of the country

and by learned societies.

"Along with the scientific mind and the spirit of the investigator he possessed a facility of expression and a discrimination in the use of language that marked him in any company. "Through the more than half a century that he lived and served

tury that he lived and served in the university community he and his home were high exponents of hospitality, culture and fine courtesy.

"While I am deeply conscious of his great worth to the university and Georgia as teacher, scholar and man of science, his passing brings to me and his other colleagues of the faculty a sense of intimate personal loss; for we had come to look to him with a feeling of affective about 6111. ing of affection almost filial."

Dr. White came to the University of Georgia in 1872 from the Univer-

of Georgia in 1872 from the University of Virginia where he had graduated. He soon became closely identified with the university and a sketch of his life would in reality be a sketch of the university over a period that covers the past half century.

Dr. White was a chemist and his life was devoted to that science, but he found time for many activities outside this field. He was awarded many honorary degrees during his life and was the author of a number of books and pamphlets. He held B. S., C. E., Ph. D., D. C. L., LL.D. and Dc. D. degrees.

Becomes Agronomist. Early in his career Dr. White beme interested in agriculture from came interested in agriculture from a chemical standpoint and as a result of his study of the cotton plant he published a complete anaylsis of com-mercial fertilizers and their adapta-bility to cotton and to the different soils of the south. He was a pioneer of in this field.

He was state chemist from 1880

soils of the south. He was a pioneer in this field.

He was state chemist from 1880 to 1890 and chief chemist of the Georgia experimental station from 1888 to 1914. He was a charter member of the Association of Official Chemists of the United States and its president in 1881-82, chairman of the executive committee of the Association of American Agricultural Colleges of Experiment. Stations, '1901-7, fellow of the Chemical Society of London, corresponding member of the British Association for the Advancement of Science and honorary member of the Belgian Academy of Science. Honorary degrees were conferred upon him by Virginia, Georgia, Michigan, Illinois, University of the South and Columbia.

In 1980 he became president of the State College of Agriculture and Mechanical Arts and organized the Farmers' institutes held over the state. He resigned this office in 1907.

Fought for School.

Fought for School.

During Dr. White's long career as a member of the University faculty he saw the institution grow from a struggling college of 100 students to the big enrollment and great university it is today. During all these years he was in many fights against personalities and institutions that would dismember the university and in a majority of them he came out victorious. Dr. White was a great believer in universal peace and for many years attended the annual conferences at Lake Mohawk. He was president of the Georgia Peace society. He was for many years vestryman of Emmanuel Episcopal church and one of the leaders of that church. He possessed a charming personality and his friends were staunch friends, including thousands of former students.

To Georgia in 1872.

When Dr. White came to Georgia in 1872 he brought with him hill young bride, who was Miss Ella Frances Roberta, of Philadelphia, a social leader of that city. Mrs. White at once became both popular and a leader Fought for School.

the University of Georgia and the south lose an outstanding educator, scientist and author. Coming to the university in 1872 he has served continuously up to now in the train-definition of the university of the

dry plank being placed in the re-iblican and democratic party plat-

However, the resolutions were regarded as untimely by board members and left for future action by the Methodist church executive committee and secretaries, consisting of Dr. Clarence True Wilson, Deets Pickett, Dr. Raymond Johnson, Dr. George Mecklenburg, D. S. Patterson, Bishop William F. McDowell, Dr. A. C. Christie, M. E. Church, John C. Little, Robert I. Ballinger, Harry L. Price, Morris E. Swartz and Rev. Edward L. Watson.

Pickett, research secretary of the board, explained that the failure of

nomination and election to a finish.

"We will do everything in our power to defeat Smith," Pickett said.

"We, of course, cannot be expected to go out and elect delegates who are anti-Smith men but we will conduct a vigorous campaign to swing public sentiment against the governor."

Methodist church leaders are confident that Smith will not be nominated. Some of them suggest Senator Thomas Walsh, of Montana, as the most likely democratic possibility.

Smith's record, stressing his leaning towards the wets, will be broadcast throughout the nation, talked from Methodist church pulpits and by the 5,000,000 members of the church, Pickett said.

Whether the committee will insist throughout the nation, talked from Methodist church pulpits and by the follows:

Truck chassis with cab (model A) \$460—\$5.000,000 members of the church, Pickett said.

Whether the committee will insist upon a dry plank in the political plat-forms may be considered later, it was said, although this action is regarded unlikely.

The National Temperance council is meeting here tonight to draft a legislative program and lay plans for the 1928 campaign. The Anti-Saloon league is to hold its biennial convention here starting December 5. Both organizations will be here near the front door of the capitol when congress opens its new session.

Officials pointed out that the new type car differs radically from the model T type and offers little opportunity for comparison.

Car Demonstrated.

The new car was demonstrated before newspapermen today in an elaborate obstacle test.

Through blinding eddies of snow, and over rutty roads, rim deep in mud, the car was driven at 62 miles at hour, twirled about, brought to abrupt halts and taken around curves at a terrific pace.

At the conclusion of the demonstration, Edsel Ford, in charge of the ceremonies, was besieged with questions.

At the conclusion of the demonstration, Edsel Ford, in charge of the ceremonies, was besieged with questions.

"Appreciating the new Ford car which succeeds his famous Model T were announced Wednesday by Henry which succeeds his famous Model T were announced Wednesday by Henry ford. A bare listing of those spectications presents a picture of an automobile that in performance, appearance and mechanical features has heretofore been associated with a considerably higher price class, local of-ticials stated.

Unusual speed and acceleration are among the outstanding features of the amount deep in mudd, the car was driven at 62 miles at hour, twirled about, brought to abrupt halts and taken around curves at a terrific pace.

At the conclusion of the demonstration, Edsel Ford, in charge of the car was driven at 62 miles at the constant of the control of the demonstration are amounced we have the remaining features and mechanical features and mechanical features has heretofore been associated with a considerably higher price class, local of-ticials stated.

Unusual speed and acceleration are among the outstanding features of the h

the Ford Motor company has given a great deal of study to this feature of the new car," the announcement added. "In high gear tests with two passengers in a Tudor sedan it has shown an acceleration of from 5 to 25 miles an hour in 8 1-2 seconds.

Four-Wheel Brakes.

"The new Ford car also introduces new type of four-wheel brakes. An a new type of four-wheel brakes. An exclusive Ford development, they are of the mechanical, shoe-expanding type, and are self-centering. The brake pedal and the hand brake each operates all four wheels. It is stated this is the most reliable and simplest type of four-wheel brake, and also type of four-wheel brake, and also the easiest to adjust, all adjustments being made from the outside without removing any parts.

removing any parts.

"An engine that is practically vibrationless develops 40 horsepower at 2,200 revolutions per minute. This low revolution speed in ratio to the high horsepower is illustrative of the unusual efficiency of the engine. Also, it means longer life, the lower engine aread invariant. speed insuring less wear on engine parts. The low revolution speed is also a substantial factor in lessening vibration. The bore is 3.7-8 inches, stroke 4 1-4 inches.
"In addition to freedom from vi-

bration, the car is unusually quiet, a great deal of attention having been paid to this feature by the Ford engi-

paid to this feature by the Ford engineers.

"The coachwork of the car is as distinctive as its performance. There is a noticeable European touch in line and contour. It is not only designed for exterior beauty, but has as well the interior roominess, convenience and luxurious appointments to be found in much higher priced automobiles. On an instrument board of satin-finished nickel are mounted the speedometer, gasoline guage, ammeter and ignition lock, with a dash-light in the center. The new military-type sun visor, with crown roof and round corners, are features of the closed models. Unusually narrow pillars and wide doors and windows give maximum of the content of the closed models. Narcotic Agent's Hunch Nets Morphine Haul And Alleged Vender

That the hunch of a federal narcotic agent in regard do suspicious looking attenances sometimes hence fruit was demonstrated Tuesday night when the suspicious of Agent Williams were directed to a chance pedestrian in downtown district, it was revealed Wednesday morning in United States commissioner's court.

Agent Williams saw W. A. Welch sauntering along the street, stopping occasionally to talk to someone. His suspicions aroused. Agent William stepped to a telephone and chiled Agent Goode. Together, the narcotic agents trailed the suspect and, after a while, walked up and accosted Welch, who, it is said, produced 21 grains of morphine.

In an election in which more than 1.100 ballots were cast, the Atlanta Chamber of Commerce Wednesday elected eight new directors to serve a two-year term, 1928 and 1929.

'Those elected are P. S. Arkwright, L. H. Beall, M. W. Bell, G. C. Bowden. William Candler, Henderson Hallman, J. S. Kennedy and Cator Woolford.

Woolford.

The following men were appointed to serve on a committee which examined and certified them: E. W. Gottenstraeter, W. W. Whitington. H. M. Askew, Charles N. Walker and Marvin A. Allison. One of the most interesting papers read before the meeting Wednesday was that of A. L. Burridge, of Cadil-lae, Mich., who discussed problems confronting highway engineers of his

The speaker said that Michigan highways claimed a larger death total each year than railroad accidents exacted during ten-years, and he described some of the safeguards being instituted in his state. Wider roads, elimination of curves and the use of paying surfaces offering the least tendency to skid are some of the safety methods now being installed, he said. Forbes and Cook Planning Flight Over South Pole

"Michigan has 6,000 road miles which are good in all kinds of weather, and during the winter months the dangerous hills and curves are sanded." Mr. Burridge said. "The increasing demands of motor traffic make it necessary that we utilize old road beds resurfaced or temporarily treated for this purpose, and in all instances safety is a paramount factor of the construction work."

An entertainment feature of Wednesday afternoon was an exhibition Plymouth, Mass., November 30.— (United News.)—A fantastic project to fly over the south pole ahead of Commander Richard E. Byrd was Commander Richard E. Bytt was hatched in their federal penitentiary cells at Leavenworth recently between Dr. Frederick Cook, the explorer, and Colonel Charles E. Forbes, former head of the United States Veterans'

"My face began to break out with small pimples. They started on my forehead, then spread over my face. They would scale over, then peel off and another lot would form. They itched and burned so that I could hardly sleep, and were so sore that they bothered me when I washed my face. The pimples also broke out on my body, and were so sore I could hardly stand my clothing. The trouble lasted about two years. "My mother advised Cuticura Soap and Ointment and sent for a free sample. I purchased more and in about two months I was healed." (Signed) Miss Golden Sparks, Celeste, Texas, June 5, 1926.

THE WORLD'S MINDOM

11 11 11 11 11 11 BY PIERRE VAN PAASSEN

Criticizes

the people of any nation. It may serve a good purpose in swinging the pendulum from one extreme to another and then bringing it to a plumb.

A Dresden firm publishes a sensational new work by Prince Lichnowsky (German ambassador to England at the outbreak of the war) antitled. To say that a nation shall completely disarm itself without completely disarm itself without completely disarming the people at the same time is to say that internal revolutions and insurrections are involved with no federal means of combating them. Of course that is a wild dream, and if put into practice it would be a very dangerous wild dream, and if put into practice it would be a very dangerous of policy.

But to say that nations shall stop the race toward military prestige, and that disarmament shall be based upon a pro-rata defense basis, and in the interest of world peace, is to admit an unselfish desire on the part of the nations of the world to establish everlasting amity, and a cestablish everlasting amity.

TO REOPEN RATE

HEARING DEC. 6

BY PAUL STEVENSON

Georgia's Commission in 1902 Faced and Overcame Obstacles That Great Men Might Occupy Niches.

served by Madison Bell, prominent At-lanta lawyer, who was the first man to suggest that the legislature take definite action in appropriating funds to erect two statues in Washington. rather than by the sword.

In the equation the world court of international justice must take its place.

Welcome.

Signor Mussolini is irritated by a slight detail of administration being hatled as another stupendous achievement of fascism or as "a marvelous mission by the late Judge Logan E. ample of fascist discipline." He Bleckley, in which he urged that the commission ratify the selection of Dr. Long and Oglethorpe as contained in the legislative resolution adopted in

Disregard Resolution.

At its first meeting the commis-ion voted to disregard the legislative resolution naming Dr. Long and Oglethorpe, on the ground that Oglerhorpe was not a citizen of the United States and that the congressional resolution allowing two citizens from each state in the Union to be represented by a statue was drawn in such a manner as to preclude the naming of General

Oglethorpe.

After taking this action, the name of Dr. Long was presented by Judge George Hillyer, of Atlanta, and he was the first to be selected to represent Georgia. His selection was urged by the redical profession of Course by the medical profession of Georgia on the ground that his discovery of the use of ether as an anesthetic in surgery entitled him to this post. The selection of Alexander H. Stephens was the next action of the commission While several other names were sub-mitted, the commission voted strongly in favor of Long and Stephens and was made virtually

unanimous.

The commission then adopted a resowere sent by the commission to the

meeting seconding the nomination of Long. Dr. Hardman later erected a monument at his own expense in Jack-son county to Dr. Long. One of the leading contributors to the Stephens statue was Mrs. J. M. High, of At-lanta.

Both Georgia U. Alumni. It is a singular coincidence that the two Georgians selected to stand in statuary hall at Washington were stu-dents at the University of Georgia and were roommates at that institu-

The reason the state legislature failed to make an appropriation for this purpose was because Attorney General Terrell ruled that such an appropriation was contrary to the constitution of the state.

"The legislature cannot constitutionally make such an appropriation."
Attorney General Terrell ruled. "The constitution strictly prohibits the apury for such a purpose. Money is some-times appropriated for pictures in the state capitol, but purely on the ground that they are furniture of the capitol.
It could not be done, of course, on
this ground in order to place statues
in the national capitol."

The suggestion that the state of Georgia place statues of two distinguished citizens in Statuary Hall was made in a letter to The Constitution written by Madison Bell August 25, 1901. Mr. Bell at that time was a stude in the University of Georgia law school and had just returned to law school and had just returned to Atlanta from a visit to Washington. While in Washington he noted that Georgia was not represented in Stat-uary Hall although reservation had been made in that hall for two Geor-gia citizens. At that time only Virrinia and Missouri were represente

rom the south. The establishment of Statuary Hall came through a resolution passed congress in 1864.

First Editorial.

In the first editorial indorsing the uggestion of Mr. Bell, The Constitutype of heroes on her roster to fi out the pages left blank for her and we would like to see the legislature place statues of two of our heroes in the niches of Statuary Hall."

The move to select Alexander phens for a place in Statuary Hall was led before the commission by Judge J. B. Park, Jr., of Greensboro. He worked diligently to obtain the nomination of Stephens and made

strong speech in his behalf. Members of the commission nam Governor Allen D. Candler in appropriate \$15,000 to pay the expensions of the erection of the two statues. Copies of these resolutions Ga.; Representatives John D. Little Columbus, speaker of the house; C were sent by two branches of the general assembly. two branches of the general assembly. No appropriation, however, was ever made for the erection of the statue man, Savannah; J. B. Park, Jr., by the state. The funds later were Greensboro, and the following from the state at large, Columbus Heal, Siloam; A. D. Hull, Athens; Judge Siloam; A. D. Hull, Athens; Spencer D. through private subscriptions.

One of the leading contributors to the fund to erect a statue to Dr. Long was Dr. Loseph Jacobs, of Atlanta.

Dr. L. G. Hardman, now governor of the commission and he made a speech at the distance at large, Columbus Hea I. Siloam; A. D. Hull, Athens; Judge George Hillyer, Atlanta; Spencer D. Atkinson, Atlanta; E. B. Gresham, Walter; Fleming G. du Bignon, Safornanab; A. D. Miller, Macon; H. M. McIntosh, Albany, and Madison Bell, Atlanta.

ward bound aboard the steamship Olympic.

While in France the governor, who played so prominent a part in the Sacco-Vanzetti case, avoided any publicity. His name was not listed at his hotel or among the travelers from Paris to Cherbourg on the Olympic boat train. It appears, however, in the usual manner on the Olympic's passenger list.

Salt Lake City, Utah, November 30. (United News.)—Leading democrats of Utah, meeting here today, voted unanimously to indorse Governor Al Smith of New York as the democratic candidate for president in 1928. A preliminary campaign fund of \$5,000 and the national committeemen of the passenger list.

Health Talks

BY WILLIAM H. BRADY

SO YOU CATARRH, ARE YOU? It is regrettably true that a good It is regrettably true that a good many doctors, of every school, or doctors of no narrow "school" at all but just regular doctors, have contributed heavily to the catarrh obsession, and I blush to admit that there are still a blush to admit that there are still not a few doctors stringing patients along with this catarrh obsession today, but not good doctors, not doctors who make it their practice to examine patients, just low grade practitioners who accept the patient's own diagnosis and waive the formality, trouble and expense of an examination.

When a doctor is properly educated, qualified, honest and not too attentive to his second class mail, he interprets.

to his second class mail, he interprets a complaint of "catarrh" as a mere indication of the direction his examination should take. No doctor of standing would dismiss a patient with correspondents

any such spurious diagnosis as "ctarth." No reputable doctor eved dares to define "catarth." I woul earnestly assure all corresponden who write to me that a doctor or do tors tell them their trouble is catarrh, that they have been unfortunate in the choice of doctors. Surely no physician capable of examining the nasal cavity could perpetrate such a hoax

on a patient.

There is no point in telling over the list of disease states that most com-monly masquerade under the mean-ingless name of "catarrh." That only serves to give victims of the "catarrh obsession something to worry. If you have this obsession don't over what can be the matter. Submit your complaint to a physician and let him find out.

One phrase still current among specialists is "middle ear catarth." It means nothing at all—precisely what the specialists think and know about the deafness so obscured. We'll have something further to say about this last affliction in subsequent articles— but we promise nothing more than the

Litvinoff rose. He plunged into the speech which Europe had awaited with fear. He spoke in English. His with fear. He spoke in English. His English wife, Ivy, dressed in a beige frock trimmed with blue, fixed her attention upon him. So did every other delegate in the room.

Reviews Situation. Reading quickly from his typewritten manuscript, the assistant foreign commissar of Russia reviewed the disarmament situation during the last seven years, making frequent references to "capitalism," and led up to the "war clouds appearing on the castern horizon" last week.

The preparatory disarmament commission, he told his fellow delegates, was merely decorative, and had accomplished nothing. "All post-war history," he said, "shows one continual increase in the armed forces of capital time against the state. "Even with all disarmaments destroyed," said Paul-Boncour of this striped, would find a means to impose their wishes."

U. S. BARS PARTICIPATION

U. S. BARS PARTICIPATION

Washington, November 30.—(49)—Non-membership in the League of Namerous descriptions a grave crowd against the state.

"Even with all disarmaments destroyed," said Paul-Boncour of this striped, and paul-Boncour of the attention against the state.

"Even with all disarmaments destroyed," said Paul-Boncour of this striped, and paul-Boncour of this striped.

"Even with all disarmaments destroyed," said Paul-Boncour of this striped, and paul-Boncour of the stroyed," said Paul-Boncour of this stroyed, "said Paul-Boncour of this stroyed," said Paul-Boncour of this stroyed, "said Paul-Boncour of this stroyed," said Paul-Boncour of this stroyed, "said Paul-Boncour of this stroyed," said Paul-Boncour of this stroyed, "said Paul-Boncour of this stroyed," said Paul-Boncour of the stroyed, "said Paul-Boncour of this stroyed," said Paul-Boncour of this stroyed, "said Paul-Boncour of this stroyed," said Paul-Boncour of this stroyed, "said Paul-Boncour of this stroyed," said Paul-Boncour of this stroyed, "said Paul-Boncour of thi

tory," he said, "shows one continual increase in the armed forces of capitalist states."

Then he presented his 13 points. The degates were amazed. For several minutes there was a heavy silence despite London's repeated calls for discussion. Finally Joseph Paul-Boncour, the indefatigable Frenchman. declared his opposition to Litvinoff's proposal of a new method of handling disarmament. "The League of Nationa. disarmament. "The League of Nationshas decided that security must precede disarmament." Paul-Boncour said.
"Litvinoff's resolution demands a complete change of methods followed to date, and which experience has taught us are best." he continued. "We are resoluted to special position."

appreciate the soviet's special position, but the common end of disarmament would only be delayed by rejecting what has already been accomplished and adopting a new method." The head of the French delegation

ed his conviction that security egets disarmament.

Change of Heart.

Although Litvinoif admitted he had been prepared to fight to the last ditch for his proposals, he experienced complete change of mind and heart in the few hours between his speech

Since we are ready to participate in all efforts to hasten disarmament he told the United News after the con-ference, "we will send a delegate into commission as an observer." He agreed to a postponement of discussion on the soviet proposals until next February.

The first session of the new com-mission will be held Thursday. The

final meeting of the disarmament con mission probably will be held Friday, its most important work for this conference having been completed, namely, creation of the security commis-

Mrs. J. E. Andrews was reclected president of the Civic Council of Women Wednesday at the annual election of officers held in the council chamber of city hall. Mrs. Marvin Williams was reelected as first vice president of the organization.

Miss Carrie Roseborough was elected second vice president in charge of the crime aspect of the organization's work. Mrs. M. C. McPherson was chosen third vice president in charge of the social service work. Serving under her will be Miss Annie Cameron and Mrs. W. C. McDonald.

on and Mrs. W. C. McDonald.

Mrs. Frank Smith was elected recording secretary and Miss Annie Cameron was chosen corresponding secretary.

Mrs. B. C. Otwell was elected treasurer and Mrs. R. L. Turman was elected parliamentarian.

It was decided at the meeting to appoint committees of the Council of Women to correspond with every committee of city council.

Haldeman - Julius' Daughter BORN SIX YEARS BEFORE PARENTS MARRIED

Was Illegitimate, He Says

Girard, Kans., November 30.—(P)

A. Haldeman-Julius today depicted the companionate marriage of his 18-year-old daughter, Josephine. to Aubrey C. Roselle here recently, as a sequel to his romance with Anna Marcet Haldeman, starting when she was a student at Byrn Mawr college 20 years ago.

In an interview stating he wished to correct an impression that Josephine was an adopted daughter, the publisher and author said that his marriage in 1916 was delayed nearly six years after her birth, larxely because of economic reasons. He said that neither Miss Haldeman nor himself felt they were earning enough to establish a home and that Josephine was cared for by friends until shortly after their marriage when she came to Girard to dive. This he said led

Girard, Kans., November 30 .- (49) sponsibility for the present and to urge

was cared for by friends until shortly after their marriage when she came to Girard to live. This, he said, led to the general belief here that she had been adopted.

Mr. Haldeman-Julius said that young Roselle, who is 20 years old and has started a college course, faced virtually the same financial problems as confronted Miss. Haldeman and as confronted Miss Haldeman and himself two decades ago, when he was a reporter for the New York Call. He Hill students from Savannah, ably explained that a desire to remove all defended their native state, while the obstacles from the romance of the cause of Louisiana was espoused by young couple caused the Roselles and lidore Dyer, of New Orleans, and himself to assume all economic re-

Be sure and mail your qualifying subscriptions at the earliest possible moment. It is a matter of hours now.

We hope to be able to make announcement of prize winners on or before Sunday, December 18.

Good luck to you all!

Life Insurance Policy Charter of Good Morals, Declinations Disclose

An analysis of declinations mad by one of the big eastern companies discloses the fact that of the case declined for a single cause, character, habits and reputation were re sponsible for more than 31 per cent of declinations.

Of this group of declinations, applications declined for a single cause, rirculatory diseases were responsible for 18 per cent and kidney disenses were responsible for 111/2 per The analysis indicates that family

history is not overwhelmingly important as a single cause of declination, accounting for less than 1 per cent of this type of cases. Family history, however, is of im portance when the cases declined for

two or more causes are considered. For in this group, it accounts for more than 9 per cent of declinations. Weight, commonly regarded as a heavily contributing factor in declinations, does not show an espe cially black record, being responsible

for only 2.8 per cent of single cause declinations. However, when weight becomes a factor in combination with other causes, its importance assumes se rious proportions, being responsible in part for 31 per cent of declina-

It has been said that a life in-surnace policy is a charter of economic freedom; in the light of the figures on declinations, it would not seem unfair to suggest that a life insurance policy is also a charter of good morals, good character, and good health. -Research & Review News.

Many a 'Millionaire' Lies in the Graveyard; Figure Your Earnings

The etory of the certainty of earn ng ability and the uncertainty of ife is an impressive one. A man knows by demonstration just how much money he is able to earn each

ar. Multiplication of this sum by the number of years he normally may be expected to live gives an astounding total, even when the yearly sum is Figure up the total and put it this

way: "Many a potential millionaire lies in the graveyard." The phrase is a dramatic crystallization of the whole purpose of life insurance—the replacement of the life value which death destroys.

THE SMALL POLICY PLAYS IMPORTANT PART AMONG POOR

tion News.

the statement that a paltry thousand dollars of life insurance (or perhaps a few thousand) is all that stands between a widow and utter destitu-

between a widow and utter destitution—statements made to call attention to small protection.

We are sorry individual protection is small. What first comes to
our mind, though, when we see such
statements is a realization of the
great work the small policy performs
in saving people from "utter destitution"—in giving relief when most
needed and in paying charges that
might crush the "utterly destitute."

Adequate life insurance is a very
desirable thing, but the small policy
is doing a wonderful work of relief.

Underwriting Education

The use of Life Insurance as a means of endowing colleges and other educational institutions throughout the country, is becoming more and more prevalent and the use of the life insurance trust in administering these endowments is today an outstanding natural development. This method of underwriting education is especially applicable to men and women of moderate fine, who cannot afford to give considerable sums outright from their estates.

The insurance agents and trust companies of the country are working in harmony in this development as in other insurance trust business. In Georgia The Citizens and Southern National Bank, one the first banks in the south to effer the life insurance trust business in a large way, is considered authority on all phases of this modern trust development.

The New Ford Car will sell at a SURPRISINGLY LOW PRICE

Complete details of the new car which will be

officially announced this FRIDAY

THE MINUTE you see the pictures of the new Ford car you will be delighted with its low, smart lines and the artistic color combinations. There, you will say, is a truly modern car.

Miller Stranger Stranger & Stranger & Rose Let & Market Stranger

But a still greater thrill awaits you when you slip into the roomy seat behind the wheel and start away for your first ride. Then you will know that you have found the most unusual value ever offered in a low-price car.

You will like the feeling of speed and power that the new Ford gives you—the comfortable, prideful feeling that comes from having a car worthy of any occasion and equal to every emergency.

You will like the flexibility and safety of the new Ford car as you weave in and out of city traffic-its flashing pick-up as the light turns green and the sign says "Go." You will like its smooth, quiet steadiness on the open road where you can lazy along according to your mood, or do 55 and even 65 miles an hour if you desire. The new Ford has unusual speed—no doubt of that!

A smart, low, speedy car that bas been built to endure

The new Ford will climb hills that you never thought a low-price car would climb on high. It will pass cars that you never thought you could pass. The longest trips will seem easy, for here is a car that puts new joy in motoring.

There is still another reason why the new Ford car is the most outstanding value ever offered in a lowprice car. An important three-word

reason that means a great deal to you -endurance-durability-long life.

The new Ford car is made to stand up under thousands upon thousands of miles of steady running over all kinds of roads. It has even more stamina than the Model T Ford because we have learned to make every part stronger and sturdier without increased weight or greatly increased cost.

Many of the Model T Ford cars are still in active service after 75,-000, 100,000 and 150,000 miles, This new Ford car will do even better. In the words of Henry Ford "It is our ambition to have every piece of machinery or non-consumable product that we turn out so strong and so well-made that no one ought ever to have to buy a second one."

Four-wheel brakes and standard, selective gear shift

On the right we are printing, for the first time, the complete details of the new Ford car. Read them over carefully, especially the paragraphs dealing with the new engine, the new bodies, the new standard, selective gear shift transmission with roller bearings, the new four-wheel brakes, the new hydraulic shock absorbers, the new mechanical design ignition, the new oiling system, and the new dry-plate, multiple-disc clutch.

Then decide that whatever else you do Friday you are going to set aside at least fifteen minutes to get the full story of the new Ford car. It is more than a new automobile. It is the advanced expression of a wholly new idea in modern, economical transportation.

FORD MOTOR COMPANY

Detroit, Michigan

FEATURES OF THE NEW FORD CAR

55 TO 65 MILES AN HOUR

The new Ford has unusual speed. It will do 55 to 60 miles an hour with ease. This is a conservative statement. In many road tests it has exceeded 65 miles an hour. So well does the new car hold the road that you can travel at high speed for long stretches with a new feeling of comfort and safety. Even bad roads may be taken at a fast pace. You will be delighted too with the way the new Ford climbs the hills. You will face the steepest grades with confidence, knowing you have power and power to spare to climb them all without greatly reduced speed, without train, or unnecessary shifting of gears.

40-HORSE-POWER ENGINE

At 2200 revolutions per minute, the new Ford four-cylin der engine develops 40 horse-power. This r. p. m., or revolution speed, is low for such power and shows that the engine is unusually efficient. It also means long life, for the lower the speed of the engine, the less the wear on its parts. The bore is 37% inches and the stroke 414 inches. (S. A. E. and N. A. C. C. rating for license purposes, 24.03 horse-

REMARKABLE ACCELERATION

The new Ford is remarkably quick on the get-away. In tests in high gear, with a Tudor sedan body and two passengers, it has accelerated from 5 to 25 miles per hour in 8½ seconds. This acceleration is an outstanding feature of the new Ford car.

PREVENTING VIBRATION

The engine in the new Ford is practically vibrationless. This is due in part to its lower r. p. m., the statically and dynamically balanced crankshaft, and the aluminum pistons. To insure quiet, the timing gears are made of bakelized fabric instead of metal, and the cams on the camshaft are so designed that the valve push rods follow them closely, preventing valve clicking.

GASOLINE ECONOMY

You will get from 20 to 30 miles per gallon of gasoline, depending on the speed at which you drive. Feed to the carburetor is by gravity from a unique welded one-piece steel tank integral with the cowl.

UNIQUE NEW OILING SYSTEM

The oiling system is distinctly Ford in design, being a combination of pump, splash, and gravity feed. The pump delivers the oil to the valve chamber, from which it flows by gravity feed to the main bearings of the crankshaft. An oil dipper is provided on each connecting rod bearing cap, so that the force of rotation of the crankshaft drives oil into the connecting rod bearings, as well as splashing oil over all working parts within the engine. This is a simple but entirely dependable system, assuring proper lubrication of each bearing and each cylinder without

PERFECTED COOLING

The new Ford car has a centrifugal water pump, and large radiator. The fan runs on the pump shaft and is made according to airplane propeller design. It is exceedingly difficult to make the new Ford engine overheat; only abuse will do it, such as running without enough oil.

IGNITION SYSTEM OF NEW DESIGN

The ignition system of the new Ford is unique in mechanical design, extremely simple, and will give the car owner exceptional performance with a minimum of trouble. There is only one coil, in a water-proof case. The distributor is located on top of the engine where it is clean and easily accessible. Connections are made to the sparkeasily accessible. Connections are made to the spark-plugs by short bronze springs. The coincidental lock on the new Ford is placed in the ignition circuit. It not only replaces the regular ignition switch, but in the "off" posi-tion grounds the entire circuit. From the switch to the distributor a steel cable protects the primary current wire, this wire being grounded to the distributor casing, thereby making it impossible to wire around the device. The new generator is of the power-house type.

STANDARD, SELECTIVE GEAR SHIFT

The new Ford transmission is of the selective sliding gear type, with standard shift. It has three speeds forward and one reverse. The main shaft runs on ball bearings, the countershaft on roller bearings, and the reverse idler on a bronze bearing. This is the highest type of bearing mounting and is unusual on light cars. All gears are made of heat-treated chrome alloy steel. You will be delighted with the easy, noiseless shifting of gears in this new transmission. You can go from one to another easily, silently, with the pressure of a finger.

EXCEPTIONALLY EASY TO STEER

The steering gear on the new Ford car is irreversible. Shocks are not transmitted back to the hands of the driver. You need not grip the wheel tightly. A light touch is enough to guide the car safely. Large steering wheel is made of steel, covered with hard rubber. Light switch and horn button are conveniently located on top of wheel.

NEW FOUR-WHEEL BRAKES

The brakes on the new Ford car are an exclusive Ford development. They are of the mechanical, internal

expanding-shoe type and are self-centering. This is the most reliable and the simplest type of four-wheel brake and the easiest to adjust. All adjustments are made from the outside without removing any parts. No special tools are needed. Uniform, correct adjustment on each wheel is quickly and easily obtained. The brake pedal and the hand lever each operate all four brakes. Total braking surface is 168 square inches. All brake working parts are cadmium plated to make them rust-proof.

MULTIPLE DRY-DISC CLUTCH

The clutch in the new Ford is of the multiple dry-disc type, which is the most reliable. It is also the easiest to operate, for it takes hold gently and smoothly. It has four driving discs and five driven discs.

COMFORTABLE TRANSVERSE SPRINGS

The springs are of the transverse, semi-elliptic type, designed and built for the new Ford. This type, which was used in the Model T, was adapted to the new car because no better spring type could be found. They are built of the finest spring steel, and the leaves are wide and thin: Each spring is built up of varying sizes and number of leaves to give proper flexibility and to meet riding requirements of the different body types. The size and number of leaves used in these springs is one of the reasons why the new Ford is such a comfortable car. The construction of the transverse springs also contributes to the safety and efficiency of

HYDRAULIC SHOCK ABSORBERS

The finest type hydraulic shock absorbers are standard equipment on the new Ford. These combine with the low center of gravity, the minimum unsprung weight, and the easy riding qualities of the transverse springs to make the new Ford one of the most comfortable cars on the road today.

THREE-QUARTERS-FLOATING REAR AXLE

The rear axle of the new Ford is of the three-quartersfloating type. The axle housings are made entirely of steel, built up by welding steel forgings to steel tubing. The dif-ferential housing, to which these housings are bolted, is made of rolled channel steel. The axle shafts carry none of the weight of the car, the wheels running on roller bearings on the housing. All bearings in the rear axle are of the roller type. Drive is by spiral bevel gear

FORD-DESIGNED STEEL-SPOKE WHEELS

Original design and great strength are two features that mark the unique, Ford-designed steel-spoke wheels. Each wheel is assembled by welding, and becomes one piece of metal. Spokes cannot work loose. Each spoke has a tensile strength of 4000 pounds. Outside spokes do not cross, so that the wheels are easy to clean. There are only 30 spokes in each wheel,

BEAUTIFUL NEW LOW BODY LINES"

There is a bit of the European touch in the coachwork and contour of the new Ford. Bodies are steel. Fenders are of the full crown type. Appointments and hardware are of a luxurious type seldom found in a low-price car. Upholstery is of rich, durable material. Cushions are deep and easy. Door handles and window lifts are fully nickeled. Speedom-eter, gasoline gauge, ammeter and ignition lock are mounted on an instrument panel of satin-finish nickel, illuminated by a lamp in center. Headlamps and radiator shell are fully nickeled. Closed cars have the new militarytype sun visor and crown roof. Great care has been taken in designing the new Ford to provide generous seat space and ample leg room. Clear, unobstructed vision is assured at front by unusually narrow pillars and at sides by specially designed doors with large windows.

CHOICE OF FOUR COLORS

The color combinations used on the new Ford are especially artistic and attractive. Four color choices are offered for each body type—a most unusual feature in a low-price car. Purchasers may choose any one of the following colors-Niagara Blue, Arabian Sand, Dawn Gray, and Gun Metal Blue. Belt and reveals are finished in contrasting colors, with attractive striping. The finish is pyroxylin lacquer, one of the finest and most enduring finishes for automobile bodies. It is not affected by heat or cold, withstands all hinds of procedure and procedure a kinds of weather conditions, and is not easily marred or scratched. The lustre actually improves with washing.

A QUIET CAR

In designing the new Ford, every precaution was taken to prevent squeaks, rattles and drumming sounds. Body panels and frame sections are welded and riveted together wherever there is possibility of the body weaving. In all structural details the new Ford bodies are built to afford the utmost quietness and comfort.

GREASE GUN LUBRICATION

The chassis of the new Ford is lubricated by the pressure grease gun system, the simplest and most effective method of lubrication.

after an automobile ride from Cincin- removed under the orders of Remus? said Rogers, when Remus sud-threw up his hands, stepped "No sir." "No sir." replied Mueller, but after

"No sir," replied Mueller, but after another question he admitted Remus had charge of the property during the vacation."

"What people?" Rogers said he asked.

"My wife and Franklin Dodge." Remus exclaimed, pointing to the names Brown, Campbell and Mann on the register. Remus thought his wife and Dodge had assumed aliases.

Rogers spoke in a cool, clear voice and the entire court room hung upon each word. He talked steadily for 20 minutes in describing the outbursts he thought indicated insanity in Remus. Rogers drank three glasses of water during his monologue. The prosecution did not interrupt him.

"No sir," replied Mueller, but after another question he admitted Remus had charge of the property during the vacation.

The furniture was there when he returned.

"Don't you know the statuary removed was sent to Romola in Chicago?" pursued Taft. Romola is Remus daughter by his first marriage.

"No sir," replied Mueller, but after another question he admitted Remus had charge of the property during the vacation.

The apparently stolid Mueller was

ity to the time Remus discovered that

Jack Daniels case at St. Louis and elsewhere.

The prosecution objected that the interrogation was not bearing upon Marshall's opinion as to Remus' sanity. Charles H. Elston, co-counsel with Remus, asserted he was not going to ask every defense witness about his opinion. Some of them merely would testify as to Remus' actions.

"If Marshall formed any opinion it must have been 'sane,' "said Carl E. Basier, assistant prosecutor, "since he used Remus as a witness in the Jack Daniels case. So there is no interest in Marshall's opinion. Remus' insanity is the only question now."

Regers said that upon the occasion of the Washington outburst Remus' raved from 8 p. m. until \$500 a. m.

Washington, November 30.—(P)—While Representative Tilson, of Connecticut, the republican house leader urged in a statement a solution of flood problems by the forthcoming congress in New England and on the Colorado and Mississippi rivers, the house flood control committee today continued to receive arguments on the federal government's responsibility over the Mississippi.

Acceptance of full payment for the costs of controlling the Mississippi by the federal government was streased before the committee by two southern democrat senators, Caraway, of Arkansas, and Tyson, of Tennessee, and other witnesses, Two railroad officials, L. W. Baldwin, of St. Louis, president of the Missouri Pacific, and C. H. Markham, of Chicago, president of the Illinois Central, also declared flood control was a national problem. Congress should adopt a general flood policy under which necessary construction works recommended by the army engineers would be expedited, Senator Tyson urged. Even if it strained the national resources, he advocated that the entire cost should be borne by the féderal government.

Senator Caraway warned against partisan politics, sectional desires or

be borne by the federal government.

Senator Caraway warned against partisan political ambitions delaying or complicating the solution of the Mississippi's flood problems. He said that it was unlikely that any opposition by the individual states on details of a federal flood plan in their boundaries would develop.

All flood prevention expenses should be paid out of the federal treasury, Senator Caraway declared, describing it as a justified step because of the obligation of the nation to protect its citizens. He, however, said he did not favor removal of outstanding indebtednesses by the government on levees already constructed.

Stands that the national government should control floods were taken by J. H. Townshend. Memphis, Tenn.; J. G. Burke, Helena, Ark., and C. L. Caldwell, St. Francis levee district, Arkansas.

ROOMS NEEDED FOR BIG GAME

Continued from First Tage.

er guests of the city who will attend "We are making a canvass of the "We are making a canvass of the city for boarding houses and private families who will lodge any number of persons for Saturday night at the regular hotel rates," Mr. Thiesen said Wednesday night, "We are gathering, consolidating and supplying all this information for local hotels, and we trust that we may be able to provide lodging for every one of the out-of-town visitors.

town visitors.

"The problem must be met and met as nearly to the complete convenience of everyone as possible. That is the reason the Tech Alumni association or everyone as possible. That is the reason the Tech Alumni association appointed a housing committee. Every visitor who comes to the Tech-Georgia game is, in a sense, the personal guest of Georgia Tech. We are doing all in our power to provide accommodations, and the outlook is promising, provided the private homes of the city will lend more assistance.

Everything that even resembles a place to sleep will be pressed into service Saturday night. Attempts are being made to place cots in vacant hospital rooms in the city. The Pullman company, appealed to by the committee, announces that it will have about 65 Pullmans in the railroad yards which may be occupied.

Plans proposed Wednesday night were to fill the city auditorium with cots in order to care for several hundred of the visitors.

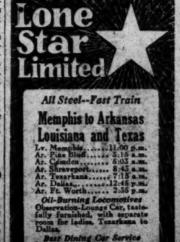

Any persons having spare shelves, or who can think up any other possible place where folks might sleep, dash forward and save the day.

After all, one must sleep.

And it has cost very little—only a tiny fraction of the sum paid in on the policies involved. Why not take advantage of this wonderful opportunity to provide yourself and your loved ones with security? Every day the mounting accident ways meaned. In Constipation

"BLANKET" YOUR MARKET!

Reach The BUYERS In This Prosperous Section Through The Constitution

THE Audit Bureau of Circulations has taken all the guesswork out of circulations; the authentic figures are available to every advertiser, regardless of whether his appropriation is large of small. And when you are examining ABC reports, bear in mind these four important 'demandments:'

Home Circulation

With women buying more than 85% of all merchandise sold in retail stores (U. S. Gov't statistics), the paper delivered to the home regularly by carrier is of supreme importance to the advertiser. The Atlanta Constitution has the largest home-delivered circulation of any Atlanta newspaper, and has had for the last four years. Your advertising in this paper actually goes into the homes—homes that can use your products!

City Coverage

The space buyer should always consider the total city circulation of each paper—for it is by this yardstick that he can measure "advertising coverage." The Constitution not only has the largest homedelivered circulation of any daily Atlanta newspaper but also by far the largest total city circulation—42,314, according to the last published statement of the Audit Bureau of Circulations.

Trade Area Coverage

An important part of every local merchant's trade comes from the territory surrounding Atlanta. Which newspaper should you use to bring people to your store from this "outside area?" The answer is: The paper with the largest "suburban" icirculation. Of all the daily papers reaching the Atlanta trading area—that's The Constitution.

TOTAL COVERAGE

The advertiser in Atlanta has the satisfaction of knowing that he can buy space reaching the homes of the city, the trade area and the country districts as well—IN ONE NEWSPAPER—the newspaper that has the largest total circulation of any daily Atlanta newspaper. Total net paid circulation of The Constitution, from last published statement of the Audit Bureau of Circulations is 80,778.

To End Severe Cough Quickly, Try This For real results, this old home-made sunedy beats them all. Easily prepared.

Tou'll never know how quickly (a bad cough can be conquered, until you try this famous home-made remedy. The immediate relief given is almost like magic. It is easily prepared, and there is nothing better for coughs.

Into a pint bottle, put 2½ ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified honey, instead of sugar syrup. Either way, the full pint saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children dike it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and disappear. A day's use will usually break up an ordinary threat or chest cold, and it is also splendid for bronchitis, boarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract and palatable guaiacol, the most reliable remedy for throat and chest silments.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Princess Eugenie Ruspoli Buys Permanent New York Residence Third Day Of

The control of the said of the state of

New York, November 30.—Princess genie Ruspoli, who is at the Savoy-um with her niece, Miss Marian plana with her niece, Miss Marian Berry, of Rome, Ga., has purchased an apartment at 1020 Fifth avenue which she will maintain permanently as her New York residence. Princess Ruspoli, widow of Prince Brarice Ruspoli, has been a resident of Italy for ever 25 yeara. Her home is the ancient and historic castle of the Ruspolis at Nemi. This castle dates from the ninth century and has been reatored to its former beauty and grandeur by the princess and furnished with some of the richest srt treaspaires of Europe, rugs, tapestries, paintings and antique furniture. Millions have been spent-by this accomplished American work, interior decoration and the vast terraced gradens. Nemi castle, a short distance from Rome, has angain become the social center it was in former ages. The princess also has a chateau in Normandy, and, since ahe visits America so frequently of late years, her recent acquisition of a New York residence will enable her to see her relatives and friends oftener in this country.

The Princess Ruspoli is an American woman, born and educated in Rome, Ga. She was Miss Jennie Berry, of Rome, Ga., veteran of the Mexican war and the Confederate army. Her first marriage was to Henry Bruton, of Nashville, Tenn., head of the Bruton snulf factories, later merged with the American Tobacco company interests.

Following Mr. Bruton's death, a few years after their marriage, his young widow, inherliting the Bruton fortune, left the south to live abroad, transplanting from Rome, Ga., to Rome, Italy. She later married Prince Ruspoli and assisted him in reclaiming the ancient ruins of Nemi, the celebrated ancestral home of the great Italian family. The princess is a comnisseur in matters artistic, an accomplished linguist and one of the social center with south to live abroad, transplanting from Rome, Ga., to Rome, Italy She later married Prince Ruspoli and assisted him in reclaiming the ancient ruins of Nemi, the celebrated ancestral home of the great Italian family. Good luck to you all!

I Have Said in My Heart

BY IDAH McGLONE GIBSON. DUTY

The word "duty" is almost lost out of the lexicon of youth today. Of course, the younger writers speak loudly of "one's duty to oneself."

It seems to me that everyone who is born into this world owes before anything else to those in it.

It is all very well to say that one did not ask to come into this world of living, thus shifting your responsibility from your own cowardly, selfish soul upon someone else.

One should be very thankful that one is allowed to live in this beautiful world, and the way to give thanks for this privilege is to make

it a little better for one's having lived.

The world owes no one a living. The air would be as fragrant, the birds would sing as sweetly, the sky would be as blue, the flowers would cover the waste places as quickly if there was not a man on this earth to

enjoy all her treasures.

On the other hand, man has no excuse for being unless he makes life a little easier for someone else, unless he makes two blades of grass grow where only one grew before.

A friend of mine is always doing "the duty that lies nearest," but she does it with such good grace that her friends always say, "wants to do that. She enjoys it." I happen to know that many, many things she does overburden an

already tired body and work-weary soul, but because she has learned the meaning of the word—because she knows that after all the only real joy of living is in doing one's duty by one's country, one's home, one's relatives and one's friends. Amiel has defined the word more beautifully than I could ever do.

"Never to tire; never to grow old; to be patient, sympathetic, tender: to look for the budding flower and the opening heart; to hope always like God; to love always—this is duty."

Memo: Duty is the paramount thing in life. It is greater than sympathy, than love, than understanding, for when one realizes his duty he has acquired sympathy and love and understanding.

at Egleston Memorial hall. WALCOLM W. BURBANK The Junior Chamber of Commerce this evening at the East Lake Construct eith events when the state of the construction o

tlemen." said Mr. Bellows, "that you are all engaged in manufacturing a commodity which of itself is entirely worthless. The finest radio receiving set in the world is no better than the broadcasting which comes within its range. You cannot drive even a Rolls-Royce comfortably over a bad road, and that is exactly what I think of when I hear a supremely efficient and

ranze. You cannot drive even a Rolls-Royce comfortably over a bad road, and that is exactly what I think of when I hear a supremely efficient and beautifully toned receiving set bringing in a program of vilely played, badly broadcast and atrociously announced jazz music.

No Longer a Novelty.

"Radio broadcasting is the newest of our sources of public entertainment, and yet already the novelty of it has completely worn off. Listening for distant stations may be amusing, but it is no longer thrilling. The fan who used to be in ecstasy for a week because one night he heard Los Angeles, now merely grumbles—and writes insulting letters to Mr. Caldwell—because one night he could not hear Los Angeles. The radio fan, far from being grateful for what he gets without material cost to himself, is generally indignant because he cannot get more—like the listener in Iowa, which, as you know, is bristling with radio stations, who wrote to me saying that the commission had utterly ruined radio throughout the country because there was cross-talk on his favorite station, which happened to be in Detroit, Mich.

"Shorn of its novelty, radio broadcasting must increasingly depend on the inherent value and artistic excellence of the service which it gives to the listener. The present trouble, as I pointed out in a speech which I would have delivered before your distinguished body last June at Virginia Hot Springs if I had been able to get there, is that in one direction radio broadcasting has already gone just as far as it possibly can. In the field of music, no greater artists, no finer orchestras, no more brilliamt execution, can possibly be found than have already been heard. And the public, or at least a section of it, is showing signs of boredom. The program which last year everybody applauded is this year received with the damnation of faint praise.

"You do not have to be told what would happen to the radio manufactur-

year received with the damnation of faint praise.

"You do not have to be told what would happen to the radio manufacturing industry it the public should ever become really bored with broadcast programs. I do not think this is likely to occur, but certainly it is something you must watch for. And, from the opposite angle, what is it that

"What Tooth?"

Met a friend on the street Wednesday morning and he looked much worse for wear. His head was bound up in a bandana and one side of his face was badly swollen from the effects of an ulcerated tooth.

He was in severe pain, but he managed to answer our "Howdy" with the following muffled reply, "Don't feel sho good. Got a ulsherated toosh; hurtsh like 'ell."

When he informed us he was going to the dentist we offered to accompany him and upon arriving at the office of the molar artist that gentleman began a spirited discussion of the Tech-Georgia football game. The discussion lasted for several minutes and our sickly friend threw in a muffled remark now and then. After half an hour of heated banter the dentist suddenly remembered his patient and said, "Now, let's have a look at that tooth.'

"What tooth?" asked our friend as he pulled out his wallet and offered 14 points.

This Tech-Georgia Game.

And that's true just as sure as prohibition is a success. But that's not the best story that's going the rounds now.

We are informed from reliable sources that a doctor friend of ours went out to see a patient Wednesday and upon being pressed for definite information he reluctantly told the patient that he could not possibly live longer than Friday.

To his surprise the patient thereupon entered into a discussion spiritualism and when the doctor expressed his dishellef in the com munication between death and life the patient replied: "Well, then, Doc, I'm going to make a liar out of you 'cause I've got to know the score of that Tech-Georgia game or I can't die in peace."

Sure, We Believe That.

Both of the above stories must be true and we hereby offer another which is just as true as those-just exactly. Another friend of ours went to a finance company to pay a note on his car. The natural discussion took place and it was discovered that the president of the company was a Georgia man.

It's a long story, but in short words our friend left the place with the note and a bet. The bet was that if Georgia lost he would win the car without further payments and would get half a dozen other cars to give to his friends.

HURRICANE VS. TIGERS

Here are some of the colored grid stars of the Atlanta university and Tuskegee institute elevens who will clash here Friday afternoon for the southeastern conference championship. The crouching fellow in the center is Robertson, A. U. center. The passer on the right is Whedbee, star quarterback of the local eleven. On the lower left is McPherson, Atlanta university fullback. In the group at the bottom are Stevenson, Stewart, Bailey and Smith, the famous Tuskegee backfield. Coach "Big Chief" Aiken, of Atlanta university, is shown on the upper left while his assistant, Gunn, is shown at the right top.

improvement has been noted in their SAMTALMADGE form since returning from the game in Chattanooga last week.

Final Trip for Birds. the University of Miami next Saturday afternoon. Included in the cortege were two full teams of Petrels, all of whom will probably see action in the game Saturday as the tropical climate of the Florida city will necessitate frequent substitutions.

This game will mark the initial grid game between the two institutions, and the dopesters predict a win for the Oglethorpe team in view of the fact that the Floridians are still in the embryonic atage of development. Each of the players seemed confident of a victory over their newly found foes and are journeying to the state of sunshine and flowers in an effort to better their rather disappointing record turned in so far this season. Robertson has had his charges drilling through a series of strenuous workouts all this week and a slight.

Tech Faces Strong and Varied Offense in Georgia Team

Great Defense Only Solution For Jackets

One of South's Greatest Faces Tornado in Constitution Cup Battle.

BY WHITNER CARY.

all game and The Constitution turday? Will the "Battalion of eath" continue its mad charge rough the Jacket lorces, or will the rando rise to inspired heights of lliance and halt the bid of the sam and Wonder team just as the schold of the conference throneroom reached?

The perfect dopester of the outcome of a football game has yet to be found. Should he be uncovered he would be hailed as one of the wonders of the age. The only thing that one the nattempts to read that which is written in the crystal ball is to gather as many known facts together as oncerns past performances, merge his with present conditions, give a crdict and then wait to see whether e is right or has pulled just anter bad piece of judgment.

This writer has seen every game leorgia has played this season. He as not witnessed a single Tech enagement. It is therefore impossible

agement. It is therefore impossible for him to give from a first-hand riewpoint his estimation of Tech's ability. Well written and accurate accounts of the Jacket battles plus lengthy conversation with those who have seen them play many times is the source of information as concerns the It is therefore impossible tack, defense and play of the Tor-

Team Records

Tech faces Georgia with a team hich has shown splendid defensive rength against conference outfits. In oven games against conference teams, the Jackets have been scored on but nee. That lone blot against their roal line came when Banker, the fleet ulane back, galloped 80 yards for a wachdown. Georgia has faced six happy medium in the way of defense and its goal line has for the opponents of the university to use. McCrary keeps the defensive line

games.
Past performances show Tech defeating V. M. I. 7-0, Tulane 13-7, Alabama 13-0, Auburn 18-0. North Carollina 13-0, L. S. U. 23-0, playing a scoreless tie against Vanderbilt and losing to Notre Dame 26-6. Georgia defeated Virginia 32-0, Yale 14-10, Furman 32-0. Auburn 33-3, Tulane 31-0, Florida 28-0, Clemson 32-0, Mercer 26-7 and Alabama 20-6.
On these figures it would appear

1.0. Florida 28-0, Clemson 32-0, Merica 26-7 and Alabama 20-6.

On these figures it would appear that Georgia has a far more power-all scoring machine. In the Auburn, ulane, Clemson and Mercer games are Bulldogs could have run up a bulldogs could have run up a such larger score. Against Yale, side of the defensive line afraid to come in fact. They have lateral mass. the larger score. Against Yale, side of the defensive line afraid to orida and Alabama, the Battalion come in fact. They have lateral pass-Death did about as much as it es that are worked as clever as the lid. The Virginia game, first of simpliest plays in football.

simpliest plays in football.

It is true that the passing attack of the season, possibly could have seen. It is quite true that Tech, against some of the teams it has met, could have run up much larger counts. But from practically every angle it is generally admitted that Georgia has a more powerful offense.

Simpliest plays in football.

It is true that the passing attack of the Bulldogs played an important part in their defeating the Crimson Tide. But had the 'Bama secondary men been set for the passes, then McCrary, Estes and Dudley would have run them to death on running plays, Johnson, the Georgia quarterback, is smarfe enough to know what will so

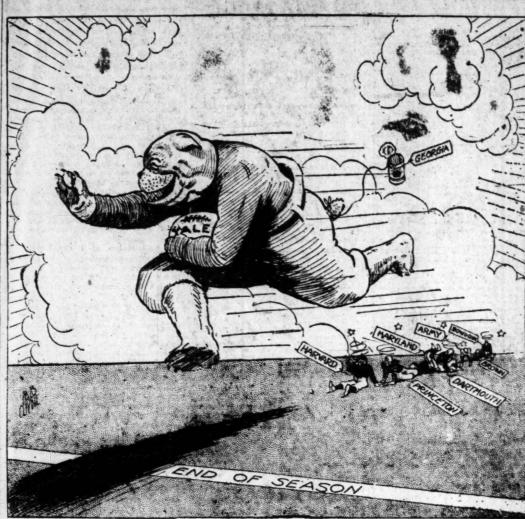

Can Tech's Defense Hold? question then presents itself ne mighty defense of Tech halt ruthless attack of the Battalion of

smart enough to know what will go.
He uses a nice selection of plays and
rules the team with an iron hand."
To meet this variegated attack Tech
can point with pride to the fact that the ruthless attack of the Battalion of Death. As is well known Georgia presents one of the most variegated attacks the south has ever seen.

Some idea of the method of attack that has caused the Battalion of Death to make such an impressive showing can be gained from several passages of an extremely well written and lucid story by Mack Tharpe, assistant freshman coach at Tech, which appeared last week in The Atlanta Journal. Said Mr. Tharpe in commenting on the Georgia-Alabama game:

"The Crimson Tide would shift its line to meet the running attack of the Bulldogs and Estes would pass the boys to death. Their defense would be changed to meet the passing game and the Bulldogs would change to a run-

CROSSING THE LINE

BEDS ARE FEW AS FANS

Large Crowd on Hand for Constitution Cup Battle BEGIN TO THRONG CI

BY BEN COTHRAN

I ast week the main topic for conversation was: "Where can I get a ticket to the Tech-Georgia game." Having realized the futility of that, people are now concerned with: "Where can I get a place to stay Friday and Saturday nights."

There is a question that is worrying more than several people. There will be plenty of 'em here Saturday to watch Tech and Georgia meet on Grant field for the southern confer-ence title and permanent possesssion of The Constitution Cup.

In 1925, when the two schools re-sumed relations and Tech, by means of a 3-to-0 victory, gained the first of a 3-to-0 victory, gained the first leg on the silver trophy offered by The Constitution to the school win-ning two out of the three games, there was quite a sizeable crowd. About 31,000, in fact. Last year, when Georgia won 14-13 and made the schools all square on the busi-ness of cup possession, the city was crowded.

this particular game, this writer cannot help but firmly believe that the
power of this Georgia offense plus its
limitless storehouse of attacking weapons will penetrate even what is
acknowledged as a good defense. The
Battalion of Death strikes in one
place and if halted soon finds another.
And seldom does that versatile wave
of destruction, directed by those two
great quarterbacks, Broadnax and
Johnson, strike in vain twice in the
same place.
Both teams will enter the fray in

Both teams will enter the fray in splendid mental shape. Tech will have whatever advantage may lie in the fact of being at the short end of the dope. If this is a mental hazard to Georgia it is one that so far has not been shown. The dream and wonder team has entered many better.

Meeting Is Set For Tech

Never Fear. Work Will Be Held This Afternoon.

BY BEN COTHRAN. Action became intensified at the flats Wednesday afternoon as Tech neared the close of its preparations "Red Terror" of Georgia, which stalks out of the east Saturday.

Jackets Work

Hard as Time

OfGameNears

Pilot Named.

Dallas, Texas, November 30.—(AP)—
The Dallas club of the Texas league will be piloted during 1928 by Bert Ellison, former player-manager of the San Francisco Scals and last year with the Minneapolis, American association club, it—was announced today by Walter Morris, secretary-business manager of the Steers.

Tiger Eleven

Arrives Today

ForA.U.Game

One relief is that we don't have to fear colleges will put too much em-phasis on chess.

announcement, or it may not. But from the way the team worked out Wednesday, showing as much spirit as a bottle of real pre-war stuff racing through a signal drill like a bunch of the station by officials of the language of the la "Red Terror" of Georgia, which stalks out of the east Saturday, the content of the cast Saturday.

Regular setimmage was wholly and totally absent, but dummy acrimmage was gone through for an hour or more by the squad that will in all probability too out Saturday afternoon to see just how much of a bite the Bulldog has and if the sting of the Yellow Jacket won't be just as effective or probably more so.

Following the dummy affair, during which the servise range was glater than the content of its games this season. Alex plan had place apply that Tech courts have been able to glean in watching Georgia in each of its games this season. Alex gathered his gang of eleven buskies around him, and followed a long talk which probably wasn't about where the well-dressed football player should buy his clothes.

The Alabama eleven will be met at the station by officials of the local condition of two-year-adds. Anyone watching deorge Tribunday in the station by officials of the local school and will be taken to the A. U. grid for a light workout. Reports the station by officials of the local school and will be taken to the A. U. grid for a light workout. Reports whether or not feel kind player against Alabama, and even better. Stumpy Thomason worked out with the same condition of the station by officials of the local school and will be taken to the A. U. grid for a light workout. Reports the trans whether the Tuskege clock is bringing one of the strong school and hin it a game of the kind player and taking part in the other work. His shoulder seems to be getting better. Stumpy Thomason worked out with the same condition and it is shoulder seems to be getting better and the dashing halfback display-to the team Wednesday, running signals and taking part in the other work. L. Cleave the title. Coach "Big Chief" Alken sent his L. Cleave through another long, of the station by officials of t

BY BOB SHERROD.

the last day of November came the last scrimmage of the year for the Georgia Bulldogs. The active work ishing touches to the play of the Red

to Georgia it is one that so far has not been shown. The dream and wonder team has entered many battles this season with the dope pointing strongly in its favor and not once has it betrayed that dope.

This writer realizes that in many former Tech-Georgia games dope has taken a vacation once the teams walked on the field. But there are exceptions to all rules and there comes out of Athens this season a team the like of which has seldom ever strode a southern field. Against the assault of this dream and wonder team Techmay be able to stand. If so the Jackets of 1927 deserve hallowed places in football's hall of fame. In the opinion of this writer Georgia will win b a very impressive margin.

The Real Levils, some time on the offense and some time on the defense. Henry Myers, Red Devil halfback, was shifted to run with the varsity and made a big impression on the few who were allowed to watch the practice. Roy Estes, running at half, showed that he had not lost any of his old-time drive and power since the last serimmage. Among the line stars of the nature of Tech's plays. For two hours the first eleven ran against the Red Devils, some time on the offense and some time on the offense and some time on the efense and some time on the offense and some time of Techyson to the star of the nature of Techyson Exceilent Playing.

The Rel Devils' play was excel-lent. The Fire Crackers with only a few days' practice made some nice gains using the Tornado's formations,

few days' practice made some nice gains using the Tornado's formations, as well as putting up a good defensive exhibition. The Red Devils undoubtedly have some players among their ranks who will see their names in large type before leaving college. There lies one of the reasons for Georgia's successful team of this year, an excellent scrub team.

With the last scrimmage of the year there came a tinge of sadness to some of the players, especially the seniors who saw their last active work on Sanford field. Some sports writer who was a recent visitor to Athens remarked that he had never seen a team that loved to play the game so much as did the Bulldogs. This same writer also commented that he had never before seen such cooperation between 11 men. A real affection seems to have sprung up between these huskies who have lived about as closely together as is humanly possible, sharing the glory which has been theirs in a wonderfully modest way. Consequently, the spirit of cooperation. The players themselves attribute their successes to one man, George C. Woodruff, for whom each player has the highest moral regards.

Liverpool was a large buyer here early, presumably on straddle account between the two markets, which some

between the two markets, which some traders think may foreshadow an improvement in export demand in the southern spot markets.

Private cables reported trade calling, covering, and continental buying in the Liverpool market, and a good demand for cotton cloths from India, although the actual turnover was disappointing and yarns were pressed for sale. Local brokers said there was a little more trade buying here today to sale. Local brokers said there was a little more trade buying here today to fix prices on call cotton, but much of the demand was attributed to covering by shorts while there was a smaller volume of offerings after the declines earlier in the week.

Exports today, 62.447 bales, making 3,111,307 so far this season. Port receipts 47,910; United States port stocks 2,622,338.

The season of the entire leagues will close Saturday. December 10. when the winners of the Peagueens and Grant Park play

Declares Filipino

Altoona, Pa., Novmber 30.—(P)—
Restriction of the Philippine sugar output will boost the price of sugar to the American consumer, Vicente Villiamin, Filipino lawyer, told a mass meeting of civic organizations today.

He charged that a combine of "powerful Cuban-American sugar capitalists" and "their national business adversary, the domestic cane and heet producers," were campaigning for restoration of the restrictions removed with adoption of the Jones law in 1916.

with adoption of the Jones law in 1916,
"The idea of restriction," he said,
"is made obnoxious to the American people by the British action concerning rubber. In the present case, it is violative of Filipino-American free trade established by law, and is, in effect, a conspiracy against the American consumer, who is the sufferer when the law of supply and demand is tampered with."

tiation.

Montgomery-Ward, which has been heavily bought by interests associated with Arthur Cutten, Chicago operator, soared nearly 10 points to a new high record of 111 3-4, compared with high.

Most of the oils were reactionary on selling inspired by reports of increasting crude production, but International Petroleum advanced nearly a high.

Stock Advances Are Dubbed As Ford Market on Exchange

Industrials Bought.

Industrial shares of all classes, were bought eagerly, but automobile accessory and merchandising shares; were outstanding as groups. The maximum gain, however, was scored by American Machine & Foundry preferred, which closed 19 points up on the day. Its common finished 16 3-4 points net higher on a big turnover. Other outstanding gains included American Radiator, 5 1-2; Manhattan Electric,

try and resulted in scores of big gains, ranging up to 19 points.

Trading was on a broader scale them in any session in weeks, the turnover embracing more than 700 individual issues, a record for the 3,000,000 shares.

Ticker Gets Behind.

So great was the volume of business that the ticker record of transactions was behind the market throughout the session and in the last hour was as much as 22 minutes in arrears, causing a deal of confusion among speculators.

In the first three hours trading averaged around 500,000 shares an hour and this rate of dealing was increased in the later session. Most of the buying in the earlier hours went into special stocks and the leading industrial issues, such as United States Steel common, General Motors and General Electric were sluggish. In the final hour, however, these and other industrial leaders were taken up netusiastically and numerous of them registered large gains on the day. Forty-five new high records for the year were registered and but two new lows attained.

Industrial shares of all classes, were outstanding as groups. The maximum gain, however, was scored by American Machine & Foundry preferred, brieferred certificates, Greene Copper, Ada Consolidated, National Bellasses and United States Spelers.

Vail street has dubbed this new higher on a big turnover. Other outstanding as groups. The maximum gain, however, was scored by American Machine & Foundry preferred, said of the preferred certificates, Greene Copper, Ada Consolidated, National Radiator preferred and but two higher on a big turnover. Other outstanding gains included American Radiator, 5 1-2; Manhattan Electric, of the series and the said in the strength of the strength of the series and the leading preferred the series of t

Erlanger.

"Broadway," the celebrated drama of the cabarets, which is at the Erlanger theater for a two weeks' engagement, with matinees Wednesdays and Saturdays, has proven as popular in Europe as it has in New York. On December 23 an American company in the play opened at the Adelphi theater. London, and the popular theater, London, and the popularity and endurance of the play in the British capital is attested by its 35-week run at that theater. Seats

Keith's Georgia.

There's a touch of nature and homebill this week. Using Weaver's own anguage, "Vaudeville has spoiled two good farmers." Just the same, they have everyone laughing with their -made musical instruments and "hick" style of delivery, and as it's their first appearance in wilanta it is very refreshing. The entire bill, in-cluding the screen play, "The Haris above the average of en-

ON THE SCREEN "IN OLD KENTUCKY" A Metro-Goldwyn-Mayer Picture

NEXT WEEK LEONA LAMAR The Girl with the 1,000 Eyes Sees All, Knows All, bill of vaudeville at the Capitol theater, offers one of the most unique acts of all variety. The ensemble of five harps forms a beautiful combination of tone and melody which, combined with the distinctive voice of Miss MacQuarrie, provides a real treat for local theater-goers. In addition, there are four other good acts which register in top-shape fashion with audiences. On the screen this week is "A Man's Past," starring Conrad Veidt.

"The Main Event," a motion picture starring Vera Reynolds and Ru-

Loew's Grand.

Lovers of minstrelsy are enjoying the great program offered this week at Loew's Grand theater by the famous Primrose Minstrels, one of the oldest minstrel organizations in the world. A. company of 20 singers, dancers, and comedians and an orchestra are found in the next which includes found in the act which includes among the stars Dan Quinlan, veteran interlocutor, known as "The Chester-field of Minstrelsy:" John King, comedian, and "Bob" Fisher. The Loew feature picture is "In Old Ken-tucky," a stirring race track melo-deema.

Your Man," would tend to prove that, as claimed, it must be her best picture to date.

On the stage Al Short and his Melo-Boys present the Publix stage w, "Trip to Mars," practically every act of which goes over well. The Loomis Twins are the hit of the show. They are considered the outstanding child performers on the stage today, and received even a bigger hand than they did last week.

Forsyth.

Cleverness, subtlety, force, action So-week run at that theater. Season and the drama that make a splendidly entered the Erlanger box office and Phillips tertaining play are found in "Enter, through with the convening of conference of western town agency of the Erlanger theater. The Forsyth Players all this week at the Forsyth theater. Miss Frances at the Forsyth theater. Woodbury, capable second woman of the players, is registering one of the greatest hits in the role of "Madame" greatest hits in the role of "Madame" eledy in the work done by the role that an Atlanta stage has seen. The story is concerned with a famous latelian prima donna and her American husband, who has been subjugated to her will for so long that he finds it difficult to break her rule.

strongly than ever, playing the part of the determined daughter who breaks away from family ties to live her own life in Greenwich Village. Donald Keith, the young hero cimployed to stand guard over the uncontrola-ble madcap, discovers he knows little

Ponce de Leon.

A brilliant screen program at the Ponce de Leon theater today and to-morrow offers as the feature Clara Bow, the scintillating film flapper, in "Hula," conceded to be among her very best pictures, "Hula" tells the

"The Main Event," a motion pic ture starring Vera Reynolds and Ru dolph Schildkraut, at the Rialto start ing today, is featured by a fight scene with Charles Delaney and Robert Armstrong as the fighters, that is said to rival the movies of the recent Dempsey-Tunney fight which were seized from the Rialto by United States department of justice agents. "The Main Event" will be on the Rialto screen Thursday, Friday and

Tudor. Comedian, and "Bob" Fisher. The Loew feature picture is "In Old Kentucky," a stirring race track melodrama.

Howard.

The crowds which have packed the Howard all week to see Clara Bow in her latest Paramount picture, "Get Your Man," would tend to prove that.

Washington, November 30.—(A')-Rumblings of discontent over the elec-Cleverness, subtlety, force, action and all the other characteristics of the republican slate of senare offithe drama that make a splendidly entertaining play are found in "Enter, through with the convening of controlled the c

Only a few votes would be neces sary to upset the carefully laid plans of party leaders to retain control of the senate organization, but whether any of the independents will carry their dissatisfaction to the front of an adverse vote on the floor remains to be developed.

Gusto tempo is Clara Bow in her fun-brimming comedy, "My Lady of Whims," at the Metropolitan this week. The fascinating, devilish "It" girl captivates her audiences more strongly than ever the strongly the strongly the strongly than ever the strongly the

concert of action.

Senator Mases came in for attack because of his part in the senate fili-buster in the closice day of the 'ast session whereby the hands of the special campaign funds committee were tied during the recess of congress. Opposition to Barry was voiced be-cause of his refusal to carry out the orders of that committee during the recess without funds from the senate

The conference of independents took place in the office of Senator La Follette, of Wisconsin, who has been one of the most active members of the slush fund committee and who supported its chairman, Reed, demosupported its chairman, Reed, demo-crat, Missouri, during the days and

nights of the filibuster.

Seven senators attended the conference, the first held in more than a week. Besides La Follette, they were Blaine, of Wisconsin; Nye and Frazier, of North Dakota; Brookhart, of Iowa; Nossis, of Nebraska, and Ship-stead farmer-labor, Minnesota. Sena-tor Borah, of Idaho, who had played a prominent part in previous confer-

ences, was not present.

While no fight over organization is developing in the house, a couple of rather bitter contests over committee places are looked for tomorrow at a meeting of the republican committee on committees which makes the selec-Some of the regulars are opposing their leaders on the proposal to elevate John M. Nelson, republican insurgent of Wisconsin, to the chairmanship of the pensions committee.

There also is a dispute over the proposal to place Representative-elect Estep, of Pennsylvania, on the ways and means committee, because other old members of the house seek the seat

on that powerful body.

In this fight there has been a renewal of the discussion about the large representation Pennsylvania already has on the more important committees of the house, such as judiciary, bank-ing, naval and military, of which Pennsylvanians are the chairmen.

ALABAMA FLOGGING PROSECUTION ENDED

Luverne, Ala., November 30—(A) Alabama's most sensational battle against masked violence came to an abrupt end today following the acquittal of two men accused of complicity in hooded whippings, and a violent three-cornered controversy between Attorney General Charlie C. McCall, the state law enforcement department and the Ku Klux Klan.

Judge A. E. Camble adjourned court following the withdrawal by Solicitor Calvin Poole of the state's 2288 against 32 men remaining to be tried for participation in a score of masked lashings in Crenshaw county.

Solicitor Poole, who has aided McCall in prosecuting the cases, said he was not willing to quash the cases, but asked that they be tabled "until such time as there is a different sentiment in this county."

The remaining cases, the solicitor explained, "can be tried at any future term of court, or they may never be tried."

The collapse of the trials climaxed Judge A. E. Camble adjourned court

The collapse of the trials climaxed the withdrawal last night of Attorney General McCall from active participa-tion in the prosecution after he had charged the Ku Klux Klan with at-

GERMANS, POLES, CZECHS DECIDE

Berlin, November 30.—(P)—Colonel Jose Tarafa, of Cuba, concluded his negotiations with the German, Polish and Czech delegations late tonight on the production of sugar, the conference ratifying the resolutions adopted at the Paris meeting November 14.

The central European producers agree to conform their production to the program proposed by the Cuban republic by limiting the acreage and preventing the surplus sugar stock from being dumped on the market in 1928.

Berlin will be the seat of the cuban address plainly as a surplus and address and a

on will be followed by a moderate decline in temperatures, thinks C. F. von Herrmann, of the weather bu-PEELS

While wire bul-letins report a severe cold wave in the offing, Mr. von Herrmann believes the dis-turbance is too far in the north-west to precipi-tate any sudden drop in temperadrop in tempera-

Current indications are that damp weather mill give way to clear skies and chilly mercury levels in time to provide the Tech-Georgia gridiron mbat here Saturday with its proper Extremes in Atlanta on Wednes-day were 59 and 67 degrees, while to-day's are expected to range between

Light rains this morning and after-

50 and 60 degrees, Mr. von Herrmann The November which slipped into history at midnight Wednesday was unusually warm and dry, the temperature level being three degrees above normal, while total rainfall was only a third of the average figure, meteorological records show.

While the month was un was not unprecedented. Georgia has seen many such mild and sunny periods, Mr. von Herrmann said. Two cool snaps, on the seventh and eighth and the seventeenth to the twentieth, visited Atlanta during November, but only one brought freez-

ing temperatures. On the seventeenth and ninteenth the mercury dropped a degree below the freezing point. With 11 months of 1927 already accounted for, December will have to bring Atlanta 19 inches of rainfall to put the 12-month period back on a normal moisture schedule. Yearly rainfall totals average 48 inches, while but 29 inches have fallen to date. The two heaviest rains of November

MIDWEST IN GRIP

OF NEW COLD WAVE. Kansas City, November 30.—(P)—Winter made a new bid in the middle west today after several days of spring-like weather.
From the Rocky mountains east-

ward across the Mississippi river and from the Canadian border down into Texas a cold wave sent the mercury plunging to low levels, The first general snowstorm of the season was unleashed. The sallies by winter into the mid-le west heretofore had failed to gain

a foothold, record high temperatures following each cold spell. The on-slaught today, however, seemed to be slaught today, however, seemed to n earnest and colder weather v weather was Snow fell in Nebraska, Kansas, Oklahoma, the Texas Panhandle and in Missouri as the storm moved eastward from Colorado. Wyoming and Mon-

tana, where from three to seven inches blanketed the ground. Subzero temperatures were recorded in Mianesota and North Dakota early today while at Edmonton. Alberta, the mercury descended to 26 below. In the southwest temperatures were be-

freezing. Central Missouri expenienced the heaviest November snow since 1906. At Columbia the precipitation measured 4 1-2 inches this afternoon. Sleet and snow was reported from St. Louis, Hannibal, on the Mississippi river, recorded 2.6 inches of snow. Pansies were in bloom yesterday at Louisiana, Mo., which experienced Louisiana, Mo., which experienced first smowstorm of the season today. reported over the entire state of Kan-

sas and the snowsform extended south-into Oklahoma. There were flurries in the Texas Panhandle. Frogs were lured out of ponds at Coffeyville, Kas., yesterday when the mercury ascended to 78 degrees. The temperature shot down to the freezing

point during the night.

An inch of snow was Kansas City's share. Enough remained to whiten roofs and lawns.

Constitution's Patterns.

A STYLISH GOWN.

charged the Ku Klux Klan with attempting to "quiet" him in his investigation of floggings in the state.

In a statement accompanying his withdrawal the attorney general charged that "the state law enforcement department, as represented by its chief supervisor and several of his assistants, has exhibited, in my judgment, a frenzied desire to assist the defense instead of the state prosecuting officials."

The governor refused to comment today on the outcome of the flogging trials and the attorney general would not amplify his last night's statement.

NOTICE OF INTENTION TO APPLY FOR CHANGE OF COUNTY LINE RETWEEN DEKALR AND FULTON COUNTIES, IN THE STATE OF GEORGIA. Notice is hereby given of the intention of the undersigned to apply for change of the county line between DeKalb and Fulton counties in the State of Georgia. The exact character of the change desired to be made is as follows:

That part of DeKalb county, Georgia.

counties in the state of voteral and counties in the state of character of the change desired to be made is as follows:

That part of DeKalb county, Georgia, which is now known as the Shallowford district shall be and become a part of fulton county, Georgia.

The situation, direction and the existing marks and monuments of the original line now separating DeKalb and Fulten counties, Georgia, and the lines bounding said tract of land, which it is desired to be made a part of Fulton county are as follows:

On the north and northeast by the line separating DeKalb county and formerly Milton county but now Fulton county, Georgia: on the east and southeast by the line separating DeKalb county and Milton county: on the south by the south line of land lots three hundred forty-nine (349), three hundred fifty on three hundred forty-nine (351), three hundred fifty-see hundred fifty-four (354), three hundred fifty-four (354), three hundred fifty-four (354), three hundred fifty-seen (357), of the eighteenth (18th) District of DeKalb county, Georgia, and on the west by the district of Fulton county, Georgia, and the eighteenth (18th) District of DeKalb county, Georgia.

The direction and location of the proposed

trict of Fulton county, Georgia, and the eighteenth (18th) District of DeKalb county, Georgia, and the eighteenth (18th) District of DeKalb county, Georgia, and location of the proposed new line between DeKalb and Fulton counties is as follows:

Beginning at a point where the southern line of formerly Milton county, now Friten county, intersects the district line between the seventeenth (17th) District of Fulton county, Georgia, and the eighteenth (18th) District of DeKalb county, Georgia, said point being at the northwest corner of Land Lot three hundred seventy-eight (378) of said eighteenth (18th) district and running thence south along said district line fitteen thousand (15.000) feet, more or less to the southwest corner of Land Lot three hundred forty-nine (349) of the eighteenth (18th) District of DeKalb cunty thence east along the south line of Land Lot stree hundred forty-sine (358), three hundred fifty-fone (351), three hundred fifty-fone (351), three hundred fifty-seven (352), three hundred fifty-seven (353), three hundred fifty-seven (354) and three hundred fifty-seven (357) of the eighteenth (18th) District of DeKalb county. Georgia, to the Hightower Trail and the Gwinaett county line: 4 thence northwest along said Hightower Trail to the southern line of Land Lot three hundred seven (307) in the southern line of Land Lot three hundred seven (307) to the sixth (6th) District of DeKalb county. Georgia, thence northwesterly along the eastern line of Land Lot three hundred seven (307); thence northwesterly along the eastern line of Land Lot three hundred seven (307); thence northwesterly along the eastern line of Land Lot three hundred seven (307); thence northwesterly along the eastern line of Land Lot three hundred seven (307); thence northwesterly along the eastern line of Land Lot three hundred seven (307); thence northwesterly along the eastern line of Land Lot three hundred seven (307); thence northwesterly along the eastern line of Land Lot three hundred seven (307); thence northwesterly along t

Fulton county line: thence southwesterly along the northern line of land lots three hundred seven (307) and three hundred eight (308) and the fine of Fulton county to the Hightower Trail: thence northwesterly along said Hightower Trail: thence northwesterly along said Hightower Trail: and the line of Fulton county to the Lawrenceville road: thence northwesterly along the line of Fulton county and the Lawrenceville road to the seventh line of formerly Milton now Fulton county; thence southwesterly along the southern line of formerly Milton now Fulton county; thence southwesterly along the southern line of formerly Milton now Fulton county; thence southwesterly along the southern line of formerly Milton now Fulton county; thence southwesterly along the southern line of formerly Milton now Fulton county; thence southwesterly along the southern line of formerly Milton now Fulton county to the point of heginning, containing fifty-five hundred [360] of the sundired forty-nine (349) to three hundred eight; (360) acres, more or less, and comprising Land Lots three hundred eight, (368) of the sixth (36th) District of DeKaib county, Georgia, and Land Lots three hundred seven (307) and three hundred eight (368) of the sixth (36th) District of DeKaib county, Georgia, being known as the Shallowford District of DeKaib county, Georgia, being known as the Shallowford District of DeKaib county, Georgia by 1914 and petitions therefor, signed in the offices of the Ordinaries of said DeKaib and Fulton counties, Georgia, will be laid before the grand juries of said counties, to-wit, at the December term, 1927, of the Superior Court of Fulton county, Georgia, pursuant to the provisions of section 469, Volume 1 of Park's Annotated Code of Georgia of 1914, as aforesaid.

According to officials of the company, Rampey had been at work at the Norcross sub-station and shortly be before noon Tuesday he stated that he was not feeling well and asked perdission from his foreman to leave his work and "lie down for a while" in a Norcross hotel. A short time later the report of a pistol was heard and hotel officials, rushing into the room, found Rampey in an unconscious condition with a bullet hole through his right hand and another over his heart. Company officials stated Wednesday that there was little doubt that Rampey shot himself.

W. M. Stanley, who roomed with Rampey, stated that they had been working at Norcross since Sunday and that Rampey seemed to be in the best, of spirits until Tuesday, when he left his work to go to the hotel. His slight illness had not caused him to complain or give any indication that he contemplated suicide, Mr. Stanley stated.

The pistol from which the shot was fired belonged to Stanley and had been

otel in Norcross, Ga., Tuesday afterthe company stated.

I all oclock to Elberton for funeral
ervices and interment. Rampey was
ushed to Davis-Fischer hospital after
has morning. No inquest will be held.

According to officials of the comhad been at work at

Correctly Dressed

For Every Occasion

A man is judged by the clothes company he keeps . . . for personal appearance may either be "pro" or "con." Whether in the calm deliberation of the business conference or the lighthearted gaiety of the dance floor, your clothes exert a potent influence. Men who realize the importance of being "correctly dressed for every occasion" have their clothes tailored here. A wonderful assortment of new suit materials to select from.

ficiated.

Mr. Wheatley, former sporting editor of The Constitution, and later connected with the public relations department of the Georgia Power company and the advertising department of the Ford Motor company at the Atlanta branch, died Tuesday morning at the United States Veterans' hospital in Lake City, Fla. He Bad been confined to the hospital about three weeks before his death, which was attributed to pulmonary gas injuries suffered during the world war. During the past three weeks he had suffered from a severe attack of pneumonia.

from a severe attack of pneumonia.

Many telegrams of condolence have been received by members of his famhere, attesting to the high esteem sporting circles throughout the

state.

In addition to his father, he is survived by two brothers, John W. Wheatley, of Chicago, Ill., and Merrill Wheatley, of Atlanta, and four sisters, Mrs. Joe W. Hawkins and Miss Isabel Wheatley, of Sebring, Fla.; Mrs. J. D. Hooks, of Americus, and Mrs. Lorrimer Clayton, of Atlanta.

Protests Labeling California Grapes As Spanish Grown

Music will be furnished by the Perless Entertainers.

All of the prize awards won during the drive will be presented tonight when the final returns have been checked over.

Reports at a luncheon meeting at the Chamber of Commerce Wedgesday at noon showed that much progress has been made in the three days thus far and N. Baxter Maddox, general chairman of the drive, expressed himself much pleased with the outlook.

Niss Taylor is believed to have ended her life Tuesday night while mentally deranged. Her body was discovered suspended from a limb of a tree over a creek, and it is believed she fastened the stout cord around her neck and leaped off into space.

NORTH CAROLINA MAN KILLS BABY, THEN ENDS LIFE

Winterville, N. C., November 30.—
(P)—Believed by relatives to have been seized by a spell of temporary insanity, J. B. Carroll, Jr., late tonight shot his five-months-old baby and then committed suicide.

Carroll, a newcomer here, had shown fits of insanity frequently, his wife

fits of insanity frequently, his wife said. He left the home tonight, in-

Judge W. J. Tilson, in United States district court here today, directed a verdict in favor of Mrs. Hazel C. Hobson, Claremore, Okla., in which she obtains possession of nearly 1,000 acres of land in Washington county, Georgia, deeded to her by her mother-in-law, Mrs. Jesse Robson.

The validity of the deed, after the filing of a will in Washington county, Georgia, was attacked by two Georgia, beirs on the ground that their

mother was mentally incapacitated when she signed the deed. This was the third day of the trial.
